

PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer with expertise in building scalable web applications using MongoDB, Express.js, React, and Node.js. Skilled in REST APIs, authentication, and responsive UI design. Strong problem-solving, collaboration, and adaptability with a focus on delivering clean, maintainable code.

EDUCATION

Masai School Full Stack Web Development	Feb 2025 – Present Bengaluru, India
RSP College, Jharia – BBMKU University B.Com (Bachelor of Commerce)	2016 – 2019 Dhanbad, Jharkhand

SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Redux, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, REST API, JWT, Firebase
Tools: Git, GitHub, Postman, Netlify, VS Code
Other: Data Structures & Algorithms, OOPs Concept, Analytical Skill
Soft Skills: Problem Solving, Communication, Adaptability, Time-Management

PROJECTS

Digital Planner & Wellness App

React, Redux, Firebase, Tailwind CSS

- Created a comprehensive digital planner integrating a mood tracker, habit tracker, to-do list, and daily journal in one platform.
- Applied a mood tracking system with visual analytics using Chart.js to help users reflect on emotional well-being.
- Executed secure user management and real-time data storage with Firebase Authentication and Firestore.
- Enabled offline capabilities and persistent theme/data storage using localStorage as a fallback.
- Crafted a clean, responsive UI with Tailwind CSS and managed app-wide state efficiently using Redux.

Habit Tracker Web App

HTML, CSS, JavaScript, Firebase

- Built a responsive web application to help users track and manage daily habits effectively.
- Enforced user authentication, real-time data storage, and progress tracking through Firebase.
- Planned and structured an intuitive UI with a dedicated community challenges page to boost engagement.

Online Course Marketplace (Full Stack)

React, Node.js, Express, MongoDB, Mongoose, JWT, Tailwind CSS, Axios

- Engineered a full-stack course platform enabling instructors to manage courses and learners to enroll securely.
- Expanded REST APIs in Express.js for authentication, course CRUD operations, and payment workflows.
- Applied JWT-based authentication and role-based access control for secure data handling.
- Improved usability across devices by creating responsive dashboards for both learners and instructors.
- Deployed on Netlify (frontend) and Render (backend) with MongoDB Atlas for scalable cloud hosting.

EXPERIENCE

Cognizant

Dec 2023 – Feb 2025

Process Executive

- Processed high-volume vendor invoices and performed 3-way matching of purchase orders, goods receipts, and invoices.
- Handled invoice validations, payment processing, and reconciliations ensuring adherence to SLA timelines.
- Maintained AP dashboards, resolved payment discrepancies, and supported month-end closing activities.
- Collaborated with cross-functional teams to streamline workflows, improve accuracy, and reduce processing time.
